

TESTIMONIAL

JALUCH LTD

WWW.JALUCH.CO.UK

Nigel Smith came to Jaluch to do a review of our business shortly after we had completed two years of trading.

The business was in a state of flux having evolved hugely during its second year. Nigel's considered approach to assessing our strengths, weaknesses, opportunities and threats as part of the review was a great help in ensuring that at the start of our third year of trading we were focussed on building on our successes and seeking to minimise the risks posed by our weaknesses.

Nigel also identified during his review the possibility of some matched funding for a project we wished to undertake, despite us never having considered whether there might be any funding opportunities.

I would thoroughly recommend that all businesses take time to 'stock take' every few years and have genuinely valued Nigel's input to our business at this time.

Helen Clarke
